SUPPLEMENTARY INFORMATION:

Title: Interest Rates and Appropriate Foreign Loss Payment Patterns for Determining the Qualified Insurance Income of Certain Controlled Corporations under Section 954(i).

OMB Number: 1545-1799.

Notice Number: Notice 2002-69.

Abstract: Notice 2002-69 allows U.S. shareholders of a foreign insurance company to use the foreign insurance company's historical loss payment patterns in computing the company's insurance reserves provided the company has a certain number of years of data and makes an election to use that data. A domestic insurance company can elect to use its own historical data in computing its reserves provided certain requirements are satisfied and an election is made. This notice allows a foreign insurance company to elect to calculate its insurance reserves in a manner similar to a domestic insurance company. Also, this notice provides guidance on how to determine a foreign insurance company's foreign loss payment patterns.

Current Actions: There are no changes being made to the burden associated with the collection at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profit organizations.

Estimated Number of Respondents: 300

Estimated Time Per Respondent: 1 hour.

Estimated Total Annual Burden Hours: 300

REQUEST FOR COMMENTS: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record.
